

Tirth Gaikwad

AI & Data Science Engineering Student

Pune, Maharashtra, India

tirthgaikwad30@gmail.com — GitHub — LinkedIn — Portfolio

Career Objective

First-year Engineering student specializing in Artificial Intelligence and Data Science, with interest in programming, web development, DSA, AI tools, and real-world projects. Seeking opportunities to improve technical skills through projects, internships, and problem-solving.

Education

B.E./B.Tech in Artificial Intelligence and Data Science

2025 – Present

Savitribai Phule Pune University / Your College Name

Class 12th

2025

Percentage: 74.17%

Technical Skills

- **Programming Languages:** Java, C, C++, Python
- **Web Development:** HTML, CSS, JavaScript, Responsive Design
- **Core Skills:** Data Structures and Algorithms, Problem Solving, OOP Basics
- **AI/Data Science:** AI Tools, Machine Learning Basics, Data Science Fundamentals
- **Tools:** GitHub, VS Code, Linux, GitHub Pages, Adobe Express

Projects

Apani Dukan Gift Shop Website

Web Development

- Built a gift shop website with festival collections, product pages, customer reviews, and WhatsApp inquiry.
- Added Gift Finder Journey feature to recommend gifts based on occasion, person, and budget.
- Designed responsive UI with modern layout and interactive sections.

Personal Portfolio Website

HTML, CSS, JavaScript

- Created and deployed a personal portfolio website using GitHub Pages.
- Showcased skills, projects, contact form, and professional profile.
- Worked on 3D scrolling design, video background, and project cards.

Space Fighter Game “Space X”

JavaScript Game

- Developed a space fighter game with enemies, scoring system, coins, levels, and difficulty increase.
- Added responsive gameplay support for desktop and mobile.
- Improved visual effects, plane skins, and vibration feedback.

Number Guessing Game

JavaScript

- Built a number guessing game between 1 to 1000.
- Added smart hints like close, too close, and too far.
- Designed enhanced UI with themes and AI narrator concept.

Certifications / Learning

- Java Programming Basics
- C++ with Data Structures and Algorithms
- Web Development using HTML, CSS, and JavaScript
- AI and Data Science Fundamentals

Achievements

- Built and deployed real-world web projects using GitHub Pages.
- Created multiple interactive project ideas using AI tools and web technologies.
- Actively learning Java, C++, DSA, AI, and Data Science for placement preparation.

Soft Skills

- Problem Solving
- Communication Improvement
- Creativity
- Teamwork
- Self-Learning

Languages

English, Hindi, Marathi
